MISSOURI HAZARD ANALYSIS  K8K  DECEMBER 2013

EDEN Conference 2014
Post Conference Presentation
Missouri Emergency Human Services

• Based on past 20 yrs. EHS recognized need to coordinate support services to disaster survivors

• Recognized COADs are as important during non-declared disasters as during declared disasters; sometimes more
Missouri Emergency Human Services

- COADs need to be developed prior to a disaster
- Needed guidance document to assist communities develop COADs
COAD Manual

• 2002 - Original COAD manual developed
• Represents an evolution in conceptual doctrine regarding providing of disaster emergency human services
COAD Manual

• Covers all phases of emergency management programming

• Engages FEMA’s Whole Community concept

• Can be organized by: city/county/regional/bi-state

• EHS incorporates many functions
  – Community Public Health
COAD Manual

– Citizen Corps
  • CERT, Fire Corps, Medical Reserve Corps, USA on Watch, Volunteers in Police Service
– Donations Management
– Volunteer Management
– Long Term Recovery Committee
– Emergency Assistance
– Mass Care
– Spiritual and Emotional Care
How to Use the Manual

• Establish a relationship with your local emergency manager
• Schedule a meeting for stakeholder agencies & organizations to discuss developing a COAD
How to Use the Manual

• Start organizational process – organized
  – Under EMA
  – Under another 501(c) 3 organization
  – Establish as 501(c) 3

• Assess capabilities of COAD

• Select functions

• Build capability for each functional area
How to Use the Manual

• Develop COAD plan
• Develop activation plan
• Continue to build capabilities by adding more functions and more resources
Training & Exercises

Keep COADs engaged through training and exercise opportunities
